Energy performance certificate (EPC)				
14, St. Pauls Court MORETON-IN-MARSH GL56 0ET	Energy rating	Valid until: <b>10 June 2025</b> Certificate number: <b>8400-7793-2629-8497-5653</b>		
Property type	Semi-detached house			
Total floor area		40 square metres		

# Rules on letting this property

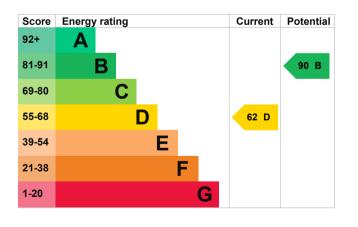

Properties can be let if they have an energy rating from A to E.

You can read <u>guidance for landlords on the regulations and exemptions</u> (<u>https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance</u>).

# Energy rating and score

This property's current energy rating is D. It has the potential to be B.

<u>See how to improve this property's energy</u> <u>efficiency</u>.

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

# Breakdown of property's energy performance

### Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating	
Wall	Cavity wall, as built, insulated (assumed)	Good	
Roof	Pitched, 100 mm loft insulation	Average	
Window	Fully double glazed	Good	
Main heating	Boiler and radiators, mains gas	Good	
Main heating control	Programmer and room thermostat	Average	
Hot water	From main system	Average	
Lighting	Low energy lighting in 60% of fixed outlets	Good	
Floor	Solid, no insulation (assumed)	N/A	
Secondary heating	None	N/A	

### Primary energy use

The primary energy use for this property per year is 365 kilowatt hours per square metre (kWh/m2).

### How this affects your energy bills

An average household would need to spend **£611 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £215 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2015** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

### Heating this property

Estimated energy needed in this property is:

- 4,615 kWh per year for heating
- 2,389 kWh per year for hot water

Impact on the environment		This property produces	2.6 tonnes of CO2
This property's current environmental impact rating is D. It has the potential to be A.		This property's potential production	0.5 tonnes of CO2
Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year. CO2 harms the environment.		You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.	
Carbon emissions			
An average household produces	6 tonnes of CO2	These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.	

# Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Floor insulation (solid floor)	£4,000 - £6,000	£31
2. Add additional 80 mm jacket to hot water cylinder	£15 - £30	£11
3. Low energy lighting	£10	£9
4. Condensing boiler	£2,200 - £3,000	£129
5. Solar water heating	£4,000 - £6,000	£35
6. Solar photovoltaic panels	£5,000 - £8,000	£267

### Help paying for energy improvements

You might be able to get a grant from the <u>Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme)</u>. This will help you buy a more efficient, low carbon heating system for this property.

Find ways to save energy in your home by visiting <u>www.gov.uk/improve-energy-efficiency</u>.

# Who to contact about this certificate

#### Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name
Telephone
Email

Brian Gibson 01608 661639 epc.gibson@btinternet.com

#### Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme Assessor's ID Telephone Email Northgate NGIS800536 01455 883 250 enquiries@elmhurstenergy.co.uk
